NURS - 3310 Nursing III, 10.00 Credits
Prerequisite(s): ( NURS 3311 with C+ or better or NURS 3310 with C+ or better ) and ( BIOL 4254 with C+ or better * or BIOL 5254 with C+ or better )
Level: Lower
Corequisite(s): NURS 3311 with C+ or better
Course Fee $23.00
In Nursing III, the student applies the nursing process to assess, plan, implement, and evaluate nursing care to meet basic needs of clients with major health concerns. Health problems are studied in depth with emphasis on client education, and disease prevention. Areas of concentration include: crisis, maternal-child health, the surgical experience, diabetes, and caring for individuals with respiratory, cardiovascular and gastrointestinal problems. The campus lab continues to be used for the acquisition, practice, and evaluation of technical skills. In the clinical area, the student cares for clients whose conditions are relatively stable and predictable. Observational experiences include rotations to obstetrics, operating and recovery rooms. The student uses a variety of methods to acquire competence in learning objectives and demonstrates increased responsibility for learning.

NURS - 1108 Nursing I, 8.00 Credits
Level: Lower
Applied Learning-Clinical Plcm, Clinical Liability Insurance, Course Fee $37.00
Nursing I is the foundation course in the nursing curriculum. Its content represents commonalities of knowledge and skills considered fundamental to subsequent nursing courses. Emphasis is placed on basic needs of an individual and how these vary, depending on their physical and emotional state and level of development. The student is introduced to the nursing process with an emphasis on assessment and planning. The student develops beginning skills in assisting patients with major health concerns to meet their basic needs. Areas of concentration include but are not limited to: legal/ethical responsibilities of the nurse, concepts of mental health, therapeutic communication and asepsis principles are incorporated throughout the course. The development of basic nursing skills begins in a structured campus lab setting and continues in the clinical lab.

NURS - 2001 Seminar in Nursing II, 1.00 Credit
Level: Lower
Clinical Liability Insurance
This course is designed to familiarize students with the expectations of the nursing program. It is an elective course to be taken by interested students the semester before their first nursing course. The objectives focus on an overview of the philosophy of nursing, theoretical and practical applications of nursing process concepts, and roles of the nurse. Classroom discussions, observations of actual nursing classes and field trips are planned to enhance the student's awareness of the expectations of the nursing program.

NURS - 2201 Trans to Assoc Degree Nursing, 1.00 Credit
Level: Lower
Pass/Fail
This course orients the student to the philosophy, objectives and curriculum design of the Nursing Program and focuses on the nursing process, therapeutic communication, nursing skills and computation competency. This course is required for the transfer student who successfully challenges or receives transfer credit for Nursing 1109 or Nursing 2209 and seeks advanced placement in the Nursing Program.

NURS - 2208 Nursing II, 8.00 Credits
Prerequisite(s): NURS 1108 with C or better or NURS 1109 with C or better
Level: Lower
Applied Learning-Clinical Plcm, Clinical Liability Insurance, Course Fee $46.00
In Nursing II, the student uses the nursing process to assess, plan, implement, and evaluate nursing care to meet basic needs of clients with major health concerns. Health problems are studied in depth with emphasis on client education, and disease prevention. Areas of concentration include: crisis, maternal-child health, the surgical experience, diabetes, and caring for individuals with respiratory, cardiovascular and gastrointestinal problems. The campus lab continues to be used for the acquisition, practice, and evaluation of technical skills. In the clinical area, the student cares for clients whose conditions are relatively stable and predictable. Observational experiences include rotations to obstetrics, operating and recovery rooms. The student uses a variety of methods to acquire competence in learning objectives and demonstrates increased responsibility for learning.

NURS - 3311 Nursing IV, 10.00 Credits
Prerequisite(s): ( NURS 3311 with C+ or better or NURS 3310 with C+ or better ) and ( BIOL 4254 with C+ or better * or BIOL 5254 with C+ or better )
Level: Lower
Corequisite(s): NURS 3311 with C+ or better
Course Fee $24.00
In Nursing IV, the student increases skills in applying the nursing process to a group of clients with chronic and/or critical health problems. The student will develop their professional role as a leader and manager and is prepared for the transition from student to graduate. Nursing IV involves the student in specialty areas such as the Emergency Department, Intensive Care Unit and Community Agencies. Major health areas which are investigated include, but are not limited to: endocrine, neurology, cardiac, respiratory, obstetrical and trauma emergencies. To develop the role as a professional, the student participates in a group leader rotation. Clinical experiences include a variety of settings. A pediatric experience and a two day preceptorship are included. Students continue to focus on prevention and health education in the clinical and community setting. In the clinical lab, the student cares for a group of clients with more critical and complex situations.

NURS - 5003 Ethical Issues in Health Care, 3.00 Credits
Prerequisite(s): NURS 2209 with C or better or NURS 2208 with C or better
Level: Lower
Pass/Fail
This course examines ethical positions arising from the advancement of modern medicine. Emphasis is placed on ethical theories and principles that guide decision-making in healthcare. Critical reasoning skills are used to analyze ethical issues and to help students understand how to make action oriented decisions for controversial healthcare questions. Aspects of inquiry and ways of knowing are explored, relative to selected ethical dilemmas or issues.

NURS - 5023 Contemporary Nursing, 3.00 Credits
Prerequisite(s): NURS 2209 with C or better or NURS 2208 with C or better
Level: Upper
This course focuses on issues and trends in nursing and healthcare delivery to achieve a broad professional perspective for the expanded role of the baccalaureate prepared nurse. Selected issues and concepts will also be analyzed with depth to determine the impact on rural healthcare delivery. The course also focuses on principles related to critical reasoning and decision-making processes to help the student to better understand the challenges and opportunities in the political, social, and healthcare environment. In addition, issues related to workplace and workplace, policy development, advancement of the profession, and advocacy will be addressed. Lastly, concepts of service learning and social justice will be explored relative to undeserved and/or vulnerable populations.
### NURS - 6003 Nursing Leadership/Management, 3.00 Credits
Prerequisite(s): NURS 2209 with C or better or NURS 2208 with C or better  
Level: Upper  
Applied Learning-Clinical Plcm, Clinical Liability Insurance  
This course focuses on the development of decision-making knowledge and skills for the nurse leader. The principles of management and leadership are addressed in the course. Course content includes role concepts, change theory, fiscal management, organizational structure, conflict resolution, impact of unionization, quality control, and performance appraisal. In addition, evidence-based leadership and decision-making for public policy are explored in the course. Lastly, service learning will be further explored with an in-depth focus on concepts of social justice and the nursing leadership role.

### NURS - 6413 Health Assessment & Promotion Across, 3.00 Credits
Prerequisite(s): NURS 2209 with C or better or NURS 2208 with C or better  
Level: Upper  
This course focuses on a wholistic approach to health assessment and promotion across the life span. The course builds on previously acquired knowledge and skills to allow a student to complete a comprehensive health assessment. Technological aspects for health assessment and promotion are addressed with the use of simulation where appropriate. Socio-cultural influences, growth and development, and gender are concepts integrated in the course. Students will be required to produce and present a health promotion plan.

### NURS - 7003 Nursing Research, 3.00 Credits
Prerequisite(s): ( MATH 1123 with C or better or MATH 2124 with C or better ) and ( NURS 2209 with C or better or NURS 2208 with C or better ) and NURS 5003 with C or better  
Level: Upper  
This course provides the student with the opportunity to examine the role of the nurse in the generation and application of research in the healthcare domain. The course focuses on the study and analysis of research in nursing practice to optimize client outcomes. Course content includes discussion of problem formulation; identification of variables; research design and methodology; data collection and analysis; and interpretation of findings. In addition, the course will focus on how theory and research relate to evidence-based practice. The steps of the research process will have sufficient depth covered to allow for a beginning appreciation of scholarly inquiry and evaluation of selected nursing research studies. Student groups will present a topical research literature review.

### NURS - 7004 Population Focused Care in Com, 4.00 Credits
Prerequisite(s): NURS 5003 with C or better and NURS 6413 with C or better and NURS 7003 with C or better and NURS 7004 with C or better * and NURS 6003 with C or better  
Level: Upper  
This course focuses on the evaluation of populations, with an emphasis on specific needs of rural communities. A forty-five hour preceptor guided community health immersion experience will provide an opportunity for the student to use the public health nursing model. The student will also participate in a community assessment, identify resources, plan, execute and evaluate a primary health prevention/promotion project.

### NURS - 7023 The History, Image & Culture Nsg, 3.00 Credits
Prerequisite(s): NURS 5003 with C or better and NURS 8003 with C or better  
Level: Upper  
This course is designed to provide an overview of the history of nursing and nursing images as they relate to nursing culture and the American health care system and society. Using historical research methods, students will explore fundamental principles for critiquing historical studies or narratives. The course will address issues of class, race, gender, and societal values as possible influences on the development of the nursing profession and nursing culture. By the end of the course, students will be able to describe the impact of historical, societal and cultural influences on modern nursing.

### NURS - 7033 Healthy Aging in Rural Areas, 3.00 Credits
Prerequisite(s): NURS 5003 with C or better and NURS 8003 with C or better  
Level: Upper  
This course focuses on the healthcare of elders including the unique aspects of aging across the adult lifespan. Elders and their needs are framed from a physical, psychological, social, cultural and spiritual perspective and within a family and community environment. Emphasis in the course is on health maintenance, prevention, and promotion as well as maintaining function and preventing disability in the elderly. The student will offer a presentation addressing contemporary nursing and healthcare issues affecting elders in rural areas.

### NURS - 8003 Informatics&Tech App in Hlthcare, 3.00 Credits
Prerequisite(s): NURS 2209 with C or better or NURS 2208 with C or better  
Level: Upper  
This course will focus on informatics and technology applications in the healthcare setting. The course covers the use of information systems and technologies such as telehealth, electronic health record (EHR), distance and e-learning, use of secondary data, and databases. In addition, the course will explore the use of portable and personal devices such as personal digital assistant (PDA), smart phones, IPod, IPAD, portable computer, and other mobile platforms in the healthcare setting. The course will also address the integration of topics related to legal, ethical, and policy issues affecting information management and technology in healthcare delivery. Finally, the course will explore information technology systems as they related to workflow and redesign in various healthcare settings to improve client outcomes.

### NURS - 8013 Professional Capstone, 3.00 Credits
Prerequisite(s): NURS 5003 with C or better and NURS 6413 with C or better and NURS 7003 with C or better and NURS 7004 with C or better * and NURS 6003 with C or better  
Level: Upper  
Applied Learning-Creative Work  
Current RN licensure is required for this course. This capstone course continues to expand and explore content to prepare the student for an autonomous role as a baccalaureate-prepared practitioner in health care. Course activities help the student identify a health care need in a rural setting to design and implement a project to address the selected concern. In addition, the course content allows the student to further develop a personal philosophy through the culminating socialization process to the expanded and autonomous role.

### NURS - 8043 Politics & Economics in Nursin, 3.00 Credits
Prerequisite(s): NURS 5003 with C or better and NURS 8003 with C or better  
Level: Upper  
This course is designed to provide the student with a knowledge base and develop skills in influencing policy in today’s changing health care environment. The course focuses on the politics of health policy in terms of legislative and executive processes at the local, state, and federal level. The course also explores economic, social, ethical and political factors of healthcare delivery systems. In addition, political aspects are explored relative to individuals or groups of importance, including special interest groups, lobbyists, the press, elected officials, legislative staff, and public agencies. Students will produce an analysis of healthcare systems and policies of elected countries, compared to the U.S. healthcare system and industry.
