

**PSYC - 1013 General Psychology, 3.00 Credits**

Level: Lower

Gen Ed - Social Sciences, Liberal Arts and Science

The major emphasis of this course is on the scientific study of the behavioral and mental processes of human beings. Both the biological structure of the human organism and the effect of the environment upon behavior are studied. The major areas of psychological study, including research methods, sensation and perception, learning theories, and cognitive processes are surveyed.

**PSYC - 1023 Human Development, 3.00 Credits**

Prerequisite(s): PSYC 1013 with D or better

Level: Lower

Gen Ed - Social Sciences, Liberal Arts and Science

This course is designed to introduce students to the basic concepts and principles of physical, cognitive, and psychosocial development at each major stage of life - from conception until old age. Major theories are explained and fully integrated throughout the human life span

**PSYC - 1033 Human Relations, 3.00 Credits**

Level: Lower

Gen Ed - Social Sciences, Liberal Arts and Science

This course covers the problems of human adjustment using the psychoanalytic, social-learning, and humanistic perspectives. The course also focuses on stress, its effects and its management. The third area of study concerns interpersonal and social aspects of adjustment.

**PSYC - 1063 Basic Helping Skills, 3.00 Credits**

Prerequisite(s): PSYC 1013 with D or better

Level: Lower

Applied Learning-Practicum, Gen Ed - Social Sciences, Liberal Arts and Science

This course is designed to assist the student in developing the helping skills necessary to conduct a productive, helping session. Helping models, ethical considerations, and interview methods will be examined, particularly as they apply to the human services field.

**PSYC - 2033 Adolescent Development, 3.00 Credits**

Prerequisite(s): PSYC 1013 with D or better

Level: Lower

Liberal Arts and Science

Adolescent Development is an introduction to the physical, cognitive, and social changes which occur between puberty and young adulthood. Contemporary issues of gender, sexuality, morality, and education are discussed. Psychological theories and developmental stages of life will be explored by the student and applied to adolescent behavior.

**PSYC - 2093 Abnormal Psychology, 3.00 Credits**

Prerequisite(s): PSYC 1013 with D or better

Level: Lower

Gen Ed - Social Sciences, Liberal Arts and Science

The major emphasis of this course is the understanding of the symptoms, etiology, diagnostic classification, and theories pertaining to psychopathology. Special attention is paid to the medical model, the psychological model, and the behaviorist model as they apply to the causes and treatment of the behavioral disorders. Newer developments in therapy which treat mental disorders as problems of living rather than specific diseases are analyzed.

**PSYC - 2900 Directed Study, 1.00 TO 4.00 Credits**

Level: Lower

Liberal Arts and Science

This course allows students who have successfully completed a previous course in psychology to continue study in that subject. A student may contract for one to four credit hours. However, directed study may be contracted by a student only with the approval of the directing instructor and the department chairperson.

**PSYC - 5013 Counseling Theory, 3.00 Credits**

Prerequisite(s): PSYC 1063 with D or better

Level: Upper

Liberal Arts and Science

This course provides students with an overview of historical and contemporary psychological approaches to helping. Topics will include theories of counseling, cultural issues, professional concerns and ethical standards of the field. The course will also address issues related to the historical and theoretical bases of crisis intervention.

**PSYC - 5093 Health Psychology, 3.00 Credits**

Prerequisite(s): PSYC 1013 with D or better

Level: Upper

Liberal Arts and Science

In this course, students will study various health determinants, the impact of socio-economic and cultural influences on health-related behaviors, the physiology of stress and effective ways to manage or reduce its negative consequences and how to evaluate research in health related fields. In addition, students will critically examine global health concerns from a health systems and health policy perspective. Topics such as the global impact of disease, theories of health-related behavior change, stress, coping, communicable and chronic diseases including cancer, cardiovascular disease, HIV, chronic pain management and the placebo effect will be covered. Strategies for individual and community health advocacy will also be discussed.

**PSYC - 5103 Industrial/Orgnztl Psychology, 3.00 Credits**

Prerequisite(s): PSYC 1013 with D or better

Level: Upper

Gen Ed - Social Sciences, Liberal Arts and Science

Industrial/Organizational Psychology is an advanced course which applies the principles of psychology to the workplace. The focus of the course is on such topics as scientific management, human relations, motivation, group dynamics, and personnel selection. Students will learn about performance appraisal, leadership skills, labor-management relations, and organizational communication. Other topics for discussion include employment discrimination, sexual harassment, and the abuse of drugs.

**PSYC - 6103 Family & Intimate Rel Violence, 3.00 Credits**

Prerequisite(s): SOCI 1163 with D or better or PSYC 1013 with D or better or HUSR 2083 with D or better

Level: Upper

Liberal Arts and Science

The course will provide a systemic examination of family and intimate relationship violence throughout the lifespan. The course will include discussion of the causes and types of violence, reporting procedures and legal remedies associated with this type of violence. It will also examine intervention and prevention programs that are available to the victims, perpetrators and others affected by it. While the course focuses mainly on the violence in the U.S., family and intimate relationship violence in other cultures will be explored. Students will be expected to prepare a research-based paper or presentation on current literature related to family and intimate relationship violence.

**PSYC - 7003 Working w/Diverse Populations, 3.00 Credits**

Prerequisite(s): PSYC 1013 with D or better

Level: Upper

This course will examine and promote understanding, sensitivity, awareness, and knowledge of human diversity. Patterns and trends in victimization and victim-blaming will be examined, particularly as they relate to high-risk groups that are often hidden in or forgotten by society (the homeless, persons living with mental disorders, veterans, those suffering from dementia, addicts, etc.). Emphasis will be placed on the psychological aspects of the individuals and groups, as well as the professional responsibilities and skills that are critical to working with these vulnerable populations.

**PSYC - 7103 The Psychology of Killers, 3.00 Credits**

Prerequisite(s): PSYC 1013 with C or better

Level: Upper

This course examines the psychological factors that are unique to mass murderers and serial killers. This course will examine what accounts for that violent rage that is unleashed against other human beings who are simply in the wrong place at the wrong time. To what extent might lethal forms of violence be caused by genetics or neurological deformities, a history of childhood neglect and abuse, or a socialization of hatred toward others? At what point in the psychological evolution of a killer might that person be considered "criminally insane?" Using a case study approach drawn from readings, film, and television, students will explore the "dark side" of human psychology in order to understand why these killers kill.
