

CERTIFICATE – CODE #3061

Jenna Zetwick, Program Coordinator
Email address: zetwicjk@alfredstate.edu

The certificate program in magnetic resonance imaging (MRI) is an upper-level, online program that will produce graduates, who are capable of working under the supervision of a physician, and who are proficient in the application of magnetic resonance imaging equipment and techniques to gather critical radiologic data to enable the diagnosis of a variety of conditions and diseases.

The program targets the acquisition of specialized MRI certification by place-bound college graduates currently employed in the medical field as licensed radiological technologists. It will consist of 15 credits total, delivered online, over a minimum of two academic semesters.

The curriculum will include: Instruction in pathologic data recording; magnetic resonance imaging data processing; magnetic resonance imaging equipment operation; and professional standards and ethics. Students in the program will complete didactic courses online, as well as clinical rotations at designated hospitals and imaging centers.

ADVANTAGES

The MRI certificate program targets existing radiologic technologists who wish to expand and diversify their clinical skills within the healthcare market place. With the exception of the clinical requirement, the program is designed to be an online experience.

CONTINUING EDUCATION OPPORTUNITIES

Students may transfer directly into one of our own BS or BTech degree programs or to another college.
