## BS DEGREE - CODE #0699

Travis Matteson, PhD, English & Humanities Department Chair Email Address: MattesTW@alfredstate.edu

The technical communication and emergent media (BS) program will address the growing demand by industry for strong writing and communication skills in technical areas. Job opportunities in technical communication and emergent media are expanding and expected to grow over the next several years. As skilled professionals trained to clearly communicate technical information and to mediate between expert and non-expert audiences, technical writers typically find employment in a wide variety of sectors including engineering and manufacturing, insurance and financial services, computer technology, and more.

## **ADVANTAGES**

The technical communication and emergent media BS will offer experiential technical education in:

- Composing, managing, analyzing, and delivering technical information to specific audiences in a variety of forms, media, and contexts.
- Creating and analyzing communication in emergent media environments and communities.
- Entering the global marketplace as skilled intercultural communicators, technical practitioners, and scholars.

Additionally the program will prepare students to be technical practitioners and scholars who can communicate about specialized information with technology and project management skills. Students will be equipped to pursue opportunities in a variety of industries by selecting competencies in several potential areas to enhance employability for graduates of the program.

## JOB OUTLOOK FROM THE U.S. BUREAU OF LABOR STATISTICS

Employment of technical writers is projected to grow 7 percent from 2022 to 2032, faster than the average for all occupations.

About 5,400 openings for technical writers are projected each year, on average, over the decade. Many of those openings are expected to result from the need to replace workers who transfer to different occupations or exit the labor force, such as to retire.

## **EMPLOYMENT STATISTICS**

As product innovation continues, technical writers will be needed to convert complex information into a format that nontechnical users of these products understand. The continuing expansion of scientific and technical products and growth in digital product support needs will drive employment demand for these writers.

Occupational Title	SOC Code	Employment 2022	Projected Employment 2031	Change 2022-2032 Percent/ Numeric	Median Pay 2022
Technical	27-3042	53,300	58,400	6%/3,700	\$79,960

Comparable careers: Editors (\$73,080), Public Relations Specialists (\$67,440), Writers & Authors (\$73,150).

This information is taken from the following source, and there is additional data on this site for Employment by Industry:

Bureau of Labor Statistics, U.S. Department of Labor, Occupational Outlook Handbook, Technical Writers, at https://www.gov/ooh/media-and-communication/technical-writers.htm (visited October 05, 2022).

#### **RELATED PROGRAMS**

The TCEM BS works in conjunction with current programs at Alfred State College:

- Designed Integration: Our program was built with the purpose of students choosing a second major or minor(s), so students in various disciplines will find strengthened career readiness by interdisciplinary preparation for their careers. We intentionally placed multiple open electives and chose required courses that generate about 30 open credits within the TCEM BS.
- "Stay for 4!": To work with the "Stay for 4!" program, our TCEM BS works in conjunction with the many associate degree programs at Alfred State College
- Transfer-Ready: Because of the 30 open credits and SUNY Seamless
  Transfer, prepared students can transfer into Alfred State College at the
  start of their 3rd year and potentially (depending on course availability) be
  on-track to graduate the following year.

## **ENTRANCE REQUIREMENTS/RECOMMENDATIONS**

Required: Algebra

Recommended: Geometry and Biology

## OFFICE OF ACCESSIBILITY SERVICES

Students who believe they need a reasonable accommodation to properly participate in this program may contact Melanie Ryan in the Office of Accessibility Services (OAS). This office may be contacted by email at oas@alfredstate.edu or by phone at 607-587-4506. Please keep in mind that some accommodations may take time to implement, so students seeking accommodations are encouraged to contact OAS as early as possible.
